AWS Certified Cloud Practitioner

Jane Doe

Junior Backend Engineer

PROFILE

Junior Backend Engineer with hands-on experience building and supporting RESTful APIs, improving database performance, and automating backend workflows in Agile environments. Comfortable working with Python, SQL, and cloud-based services to deliver reliable, maintainable software for internal and customer-facing applications.

EXPERIENCE

Junior Backend Engineer · Northstar Health TechJun 2023 - Present

- Built and maintained Python-based REST APIs used by 12 internal tools, reducing manual data-processing time by 35%.
- Optimized PostgreSQL queries and added indexes to improve average endpoint response time by 28%.
- Implemented automated tests with Pytest, increasing backend coverage from 54% to 81%.
- Collaborated with product and frontend teams to deliver 6 production releases with minimal post-release defects.

Backend Developer Intern · BrightBridge SoftwareMay 2022 - May 2023

- Developed 8 API endpoints in Python and Django for a customer portal serving 5,000+ monthly users.
- Wrote SQL scripts to clean and migrate legacy records, improving data consistency across 3 databases.
- Assisted with Docker-based local environments, cutting onboarding setup time for new developers by 40%.
- Participated in code reviews and bug fixes, closing 30+ Jira tickets during the internship.

Software Engineering Intern · Midway AnalyticsJan 2021 - Aug 2021

- Supported backend data ingestion pipelines in Python, processing up to 1.2M rows per day.
- Created automated validation checks that reduced malformed data incidents by 22%.
- Documented API usage and internal runbooks, helping reduce support escalations from the operations team.

IT Support Associate · Lakeview College of TechnologySep 2019 - Dec 2020

- Provided technical support for faculty and staff, resolving an average of 18 tickets per week.
- Maintained user accounts and access permissions across campus systems.
- Assisted with software deployments and basic scripting tasks, building a foundation in backend operations and automation.

EDUCATION

B.S. in Computer Science

University of Illinois Chicago · 2023

Associate of Science, Computer Science

William Rainey Harper College · 2021
