Anna Lindqvist

Lead Business Analyst

PROFILE

Senior business analysis leader with experience driving large-scale digital transformation, process optimization, and cross-functional delivery in regulated and customer-facing environments. Known for translating business strategy into actionable requirements, improving operating models, and aligning stakeholders across product, technology, and operations.

EXPERIENCE

Lead Business Analyst · Nordica Bank AB Mar 2022 - Present

- Led a team of 6 analysts supporting a banking platform modernization program across lending, onboarding, and customer servicing.
- Defined and prioritized over 180 business requirements, reducing rework during development by 32%.
- Facilitated workshops with 40+ stakeholders across risk, compliance, and technology to align scope and delivery milestones.
- Improved release readiness by introducing traceability and sign-off controls, cutting approval delays by 25%.

Senior Business Analyst · Telia Company Aug 2018 - Feb 2022

- Owned analysis for a customer experience initiative affecting 1.2 million mobile and broadband users in Sweden.
- Mapped end-to-end service journeys and identified process bottlenecks that reduced case handling time by 18%.
- Worked closely with product owners and architects to refine backlog items and support quarterly planning for 4 agile teams.
- Built KPI reporting in Power BI to track adoption, churn, and service performance across key markets.

Business Analyst · Ericsson Jan 2015 - Jul 2018

- Supported global operations and sales process improvements across 12 countries, standardizing core reporting and approval workflows.
- Gathered and documented functional requirements for CRM and internal order management enhancements.
- Coordinated UAT for multiple releases, helping achieve a 96% first-pass acceptance rate.
- Partnered with change managers to prepare training materials and improve end-user adoption after deployment.

Junior Business Analyst · SEB Jun 2012 - Dec 2014

- Assisted with requirements documentation and process analysis for retail banking operations.
- Prepared dashboards and management summaries used by senior leaders in monthly performance reviews.
- Supported data cleanup and validation activities that improved reporting accuracy by 20%.
