SKILLS

- Python
- Machine Learning
- MLOps
- TensorFlow
- PyTorch
- AWS
- Docker
- Kubernetes

LANGUAGES

- PortugueseNative
- EnglishFluent
- SpanishB2

CERTIFICATIONS

- AWS Certified Machine Learning - Specialty
- Certified Kubernetes Application Developer (CKAD)

Inês Matias Ribeiro

Principal Machine Learning Engineer

PROFILE

Principal Machine Learning Engineer with 10+ years of experience building production-grade ML systems across fintech, e-commerce, and SaaS. Known for leading cross-functional teams, improving model performance at scale, and translating complex business problems into reliable data and ML solutions.

EXPERIENCE

Principal Machine Learning Engineer · PayNexus

Mar 2021 - Present

- Led the design and rollout of Python-based fraud detection pipelines, reducing chargeback losses by 28% in 12 months.
- Built and standardized MLOps workflows on AWS and Kubernetes, cutting model deployment time from 3 weeks to 4 days.
- Mentored a team of 6 data scientists and engineers, improving experiment throughput by 35% and production stability by 40%.

Senior Machine Learning Engineer · Farfetch

Jun 2018 - Feb 2021

- Developed recommendation and ranking models in Python and PyTorch, increasing click-through rate by 14% and conversion by 9%.
- Partnered with product and data engineering to productionize feature pipelines serving 50M+ daily events.
- Implemented automated monitoring for model drift and data quality, reducing incident resolution time by 60%.

Machine Learning Engineer · Talkdesk

Jan 2016 - May 2018

- Built NLP classification services for customer support automation, improving intent routing accuracy to 92%.
- Created reproducible training workflows in Python, TensorFlow, and Airflow, decreasing experiment setup time by 50%.
- Supported A/B testing for ML features across multiple customer deployments, contributing to a 20% reduction in manual triage.

Data Scientist · Sonae MC

Jul 2013 - Dec 2015

- Delivered demand forecasting models that improved inventory planning accuracy by 11% across key product lines.
- Analyzed large-scale retail datasets using Python and SQL to identify pricing and assortment opportunities.
- Collaborated with business teams to define KPIs and dashboards, enabling faster weekly decision-making.

EDUCATION

MSc in Computer Science and Engineering

Instituto Superior Técnico · 2013

BSc in Computer Science

University of Porto · 2011
