Lucía Fernández García

Junior Android Developer

PROFILE

Junior Android Developer with hands-on experience building and maintaining mobile features for consumer-facing apps. Strong foundation in Kotlin, Jetpack components, and clean code practices, with a focus on delivering stable user experiences and collaborating effectively in Agile teams.

EXPERIENCE

Junior Android Developer · MobiWave Solutions

Apr 2024 - Present

- Developed 6+ UI screens in Jetpack Compose, improving feature delivery speed by 25% for a customer-facing app.
- Implemented API integrations with Retrofit and Coroutines, reducing loading errors by 18% in key user flows.
- Fixed 40+ bugs and supported release stabilization, contributing to a 4.6-star app rating on Google Play.

Android Developer Intern · Nexo Digital

Jul 2023 - Mar 2024

- Assisted in building reusable UI components with XML and ViewBinding, cutting duplicate code across 3 modules.
- Added local persistence features with Room for offline access, supporting over 10,000 monthly active users.
- Participated in code reviews and sprint planning, consistently meeting delivery goals across 2-week Agile iterations.

Mobile Development Intern · Telefónica Tech

Feb 2023 - Jun 2023

- Supported development of an internal Android tool used by 200+ employees for incident tracking and reporting.
- Created and tested minor feature updates under senior supervision, improving task completion time by 15%.
- Documented setup and troubleshooting steps, helping reduce onboarding time for new interns by 30%.

Junior QA Support · SoftServe Iberia

Sep 2022 - Jan 2023

- Executed Android test cases on 15+ app builds, identifying and reporting UI and functional regressions early.
- Collaborated with developers to reproduce defects and verify fixes, lowering re-opened tickets by 12%.
- Maintained test evidence and release notes, improving traceability during pre-release validation.

EDUCATION

BSc in Computer Engineering

Universitat Politècnica de València · 2023

Higher Technician Diploma in Multi-platform Application Development

IES Abastos · 2021
