María Elena García Navarro

Principal Product Manager

PROFILE

Principal Product Manager with 12+ years of experience leading B2B and platform products across fintech, SaaS, and digital marketplaces. Known for turning complex business goals into clear product strategy, driving cross-functional execution, and delivering measurable growth in conversion, retention, and revenue.

EXPERIENCE

Principal Product Manager · Nexora Payments Jan 2021 - Present

- Led the global product strategy for a B2B payments platform, increasing processed transaction volume by 38% in 24 months.
- Directed a 9-person cross-functional squad across engineering, design, risk, and operations, reducing checkout abandonment by 17%.
- Launched a new merchant onboarding flow across 6 European markets, cutting activation time from 10 days to 3 days.
- Owned quarterly OKRs and portfolio prioritization, improving roadmap predictability by 30%.

Senior Product Manager · Glovo May 2018 - Dec 2020

- Scaled marketplace features for partner merchants, contributing to a 22% increase in repeat order rate.
- Introduced experimentation frameworks that improved conversion on key purchase flows by 11%.
- Partnered with data and operations teams to reduce support tickets related to order issues by 19%.
- Managed a product backlog spanning logistics, consumer, and merchant experiences in a fast-paced growth environment.

Product Manager · Banco Sabadell Sep 2014 - Apr 2018

- Led digital banking initiatives for retail customers, growing mobile active users by 26% over two years.
- Delivered a redesigned account-opening funnel that improved completion rates by 14%.
- Worked closely with compliance and legal teams to launch regulated features on schedule and without audit findings.
- Built business cases and dashboards to support executive decision-making on product investments.

Associate Product Manager · Ebury Feb 2012 - Aug 2014

- Supported development of FX and international payments products for SME clients across Europe.
- Helped define customer journeys and requirements that reduced manual processing steps by 25%.
- Tracked feature adoption and funnel metrics to prioritize enhancements with the highest commercial impact.
