SKILLS

- AWS
- Azure
- Python
- Terraform
- Kubernetes
- Docker
- CI/CD
- Networking & Security
- Linux

LANGUAGES

- EnglishNative
- SpanishConversational
- GermanB2

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Microsoft Certified: Azure Administrator Associate

Michael Andrew Carter

Mid-Level Cloud Solutions Architect

PROFILE

Cloud Solutions Architect with 7+ years of experience designing and migrating secure, scalable cloud environments across AWS and Azure. Strong background in infrastructure as code, Python automation, and cross-functional delivery for enterprise applications, with a focus on reliability, cost optimization, and operational excellence.

EXPERIENCE

Cloud Solutions Architect · Northbridge Health SystemsFeb 2023 - Present

- Led architecture for a multi-account AWS environment supporting 40+ applications, reducing platform deployment time by 35% through standardized Terraform modules and CI/CD pipelines.
- Built Python automation for resource provisioning and compliance checks, cutting manual configuration effort by 60% across engineering teams.
- Partnered with security and infrastructure stakeholders to implement least-privilege IAM, centralized logging, and backup recovery controls aligned with enterprise policy.
- Advised product teams on hybrid connectivity and service selection, helping migrate 18 workloads with zero critical production incidents during cutover.

Cloud Engineer · BluePeak SoftwareJul 2020 - Jan 2023

- Designed and maintained Azure landing zones for a SaaS platform serving 1.2M monthly users, improving environment consistency across dev, test, and production.
- Created reusable Terraform and Python automation for deployments, reducing release failures by 28% and enabling weekly delivery cadence.
- Implemented container orchestration on Kubernetes and Docker, improving application uptime to 99.95% for core customer-facing services.
- Worked with FinOps teams to optimize compute and storage usage, lowering monthly cloud spend by 19% without impacting performance.

Systems Engineer · Cascade Financial GroupMay 2017 - Jun 2020

- Supported Windows and Linux infrastructure for regulated financial applications, maintaining 99.9% service availability across on-prem and cloud-connected systems.
- Assisted with migration planning and network design for cloud adoption initiatives, documenting dependencies and reducing implementation risk.
- Automated routine operational tasks with Python and PowerShell, saving approximately 12 hours per week for the operations team.
- Participated in incident response and root-cause analysis, decreasing repeat outages by standardizing monitoring and alerting practices.

Technical Support Analyst · Evergreen Tech ServicesAug 2015 - Apr 2017

- Resolved Tier 2 infrastructure and application issues for enterprise clients, consistently meeting 95% of SLA targets.
- Maintained asset, account, and access records while supporting server and endpoint troubleshooting across mixed Windows and Linux environments.
- Collaborated with senior engineers to document runbooks and improve ticket triage workflows, reducing average resolution time by 22%.

EDUCATION

Master of Science in Information Systems

University of Washington · 2015

Bachelor of Science in Computer Science

Oregon State University · 2013
