CERTIFICATIONS

Microsoft Certified: Azure Database Administrator Associate

Oracle Database 12c Administrator Certified Associate

Michael Tremblay

Senior Database Administrator

PROFILE

Senior Database Administrator with 12+ years of experience designing, securing, and optimizing enterprise database environments across high-availability production systems. Known for improving performance, strengthening backup and recovery strategies, and leading reliable database operations in regulated environments.

EXPERIENCE

Senior Database Administrator · NorthBridge FinancialFeb 2020 - Present

- Administered a mixed SQL Server and Oracle estate supporting 180+ production and non-production databases with 99.98% availability.
- Reduced average report query times by 42% through indexing, execution plan analysis, and schema tuning.
- Led quarterly disaster recovery tests and cut critical recovery time objectives from 4 hours to 75 minutes.
- Standardized backup, patching, and access-control procedures across 6 business units, improving audit readiness.

Database Administrator · Maple Leaf LogisticsJun 2016 - Jan 2020

- Managed day-to-day operations for 90+ SQL Server instances across primary data centers and DR sites.
- Implemented Always On Availability Groups for core systems, eliminating single points of failure and improving service continuity.
- Automated routine maintenance jobs and capacity monitoring, reducing after-hours incidents by 30%.
- Partnered with developers to resolve blocking, locking, and indexing issues on high-volume transactional systems.

Database Administrator · Crestview Health SystemsMay 2012 - May 2016

- Supported patient-facing and internal applications in a HIPAA- and PHIPA-sensitive environment with strict access controls.
- Improved backup success rates to 99.9% by redesigning maintenance plans and validating restore procedures monthly.
- Assisted with version upgrades and migrations for 25+ databases, completing projects with no unplanned downtime.
- Created documentation and runbooks for incident response, change management, and patch validation.

Junior Database Administrator · PrairieTech SolutionsAug 2009 - Apr 2012

- Provided first-line support for SQL Server databases and helped maintain uptime for client-facing applications.
- Performed routine restores, user provisioning, and index maintenance under senior DBA supervision.
- Tracked performance trends and identified recurring bottlenecks, contributing to measurable improvements in application responsiveness.

EDUCATION

Bachelor of Science in Computer Science

University of Waterloo · 2009

Diploma, Information Systems Technology

George Brown College · 2006
