Sarah Mitchell

Engineering Manager

PROFILE

Engineering leader with 9+ years of experience building and scaling software teams in fast-paced product environments. Strong track record of improving delivery predictability, coaching engineers, and partnering with product and design to ship reliable customer-facing platforms.

EXPERIENCE

Engineering Manager · Shopify

Mar 2022 - Present

- Lead a team of 8 engineers across checkout infrastructure, improving deployment frequency by 35% while reducing production incidents by 28%.
- Partner with product and design to deliver 4 major roadmap initiatives per quarter, consistently meeting 90%+ of committed milestones.
- Implemented a performance and coaching framework that increased internal promotion readiness for 3 engineers within 12 months.

Senior Software Engineering Manager · RBC

Jun 2019 - Feb 2022

- Managed 2 squads totalling 12 engineers delivering digital banking features used by more than 1.5M monthly active users.
- Drove modernization of legacy release processes, cutting release cycle time from 3 weeks to 5 days.
- Led hiring and onboarding efforts that improved team capacity by 25% and reduced new-hire ramp-up time by 30%.

Software Development Manager · Thumbtack

Jan 2017 - May 2019

- Built and scaled a Toronto engineering pod from 4 to 10 engineers, supporting a 2x increase in product throughput.
- Established measurable sprint planning and engineering health metrics, improving on-time delivery from 68% to 88%.
- Collaborated with platform teams to introduce service ownership practices that lowered mean time to recovery by 40%.

Technical Lead · Intact Financial

Sep 2014 - Dec 2016

- Led a team modernization initiative for claims workflow systems, reducing manual processing steps by 20% and improving customer turnaround time.
- Coordinated architecture decisions across development, QA, and operations to support a cloud migration program affecting 6 applications.
- Mentored 5 developers through code reviews and technical pairing, contributing to higher code quality and fewer escaped defects.

EDUCATION

Bachelor of Applied Science in Computer Engineering

University of Waterloo · 2012

Master of Business Administration

Queen's University · 2018
