English Native

Mandarin Chinese Conversational

CERTIFICATIONS

AWS Certified Solutions Architect - Associate

Microsoft Certified: Azure Solutions Architect Expert

Amelia Chen

Mid-level Cloud Solutions Architect

PROFILE

A results-driven Mid-level Cloud Solutions Architect with 5+ years of experience designing, implementing, and optimizing scalable cloud infrastructure. Proven ability to leverage AWS and Azure services to deliver robust, cost-effective, and secure solutions. Adept at collaborating with cross-functional teams to translate business requirements into technical architectures.

EXPERIENCE

Cloud Solutions Architect · InnovateCloud Solutions Jan 2022 - Present

- Designed and implemented scalable AWS cloud architectures for 5+ enterprise clients, resulting in a 25% reduction in operational costs and improved system reliability.
- Developed automated deployment scripts using Python and Terraform, accelerating infrastructure provisioning by 40% and reducing manual errors.
- Led the migration of on-premise applications to AWS, achieving a 99.9% uptime for critical services post-migration.
- Optimized existing cloud resources, identifying and implementing cost-saving measures that saved clients an average of \$50,000 annually.

Associate Cloud Engineer · Tech Ascent Corporation Jul 2019 - Dec 2021

- Assisted in the design and deployment of Azure-based solutions, contributing to projects that enhanced system performance by 15%.
- Wrote Python scripts for monitoring cloud resource utilization and alerting, improving incident response time by 20%.
- Managed CI/CD pipelines using Jenkins for automated application deployments, reducing deployment time by 30%.
- Collaborated with development teams to ensure seamless integration of applications with cloud infrastructure.

Junior DevOps Engineer · Digital Horizon Labs Jan 2018 - Jun 2019

- Supported the maintenance and troubleshooting of Linux servers and cloud-based infrastructure (AWS).
- Implemented Docker containers for various applications, streamlining development and deployment workflows.
- Assisted in the automation of infrastructure setup using Ansible, reducing manual configuration efforts by 20%.

EDUCATION

Master of Science in Computer Science

Georgia Institute of Technology · 2019

Bachelor of Science in Information Technology

University of Washington · 2017
