CERTIFICATIONS

ISTQB Certified Tester - Foundation Level

Cécile Dubois

Mid-level QA Automation Engineer

PROFILE

A detail-oriented and proactive Mid-level QA Automation Engineer with over 5 years of experience in designing, developing, and executing automated test suites. Proven ability to enhance software quality, accelerate release cycles, and improve overall testing efficiency for complex web and mobile applications.

EXPERIENCE

QA Automation Engineer · TechInnov Solutions

Jan 2021 - Present

- Developed and maintained over 300 automated test scripts using Selenium WebDriver and Java, reducing manual testing effort by 40% and accelerating regression testing cycles.
- Integrated automated tests into CI/CD pipelines using Jenkins, leading to a 25% decrease in critical bug detection post-deployment.
- Collaborated with development teams to implement BDD practices, improving test coverage by 15% and aligning testing with business requirements.
- Mentored junior QA engineers on automation best practices and framework usage.

Junior QA Automation Engineer · Digital Dynamics S.A.

Sep 2018 - Dec 2020

- Designed and executed automated tests for web applications using Cypress and JavaScript, increasing testing efficiency by 30%.
- Contributed to the development of a reusable test automation library, reducing script creation time by 20%.
- Performed comprehensive functional, regression, and cross-browser testing, identifying an average of 15 critical defects per release cycle.

QA Tester · Innovatech Group

Jul 2016 - Aug 2018

- Executed manual test cases for new features and bug fixes across multiple platforms, ensuring high quality before release.
- Reported and tracked defects using Jira, providing clear and concise reproduction steps for development teams.
- Participated in daily stand-ups and sprint reviews within an Agile development environment.

EDUCATION

Master's Degree in Software Engineering

INSA Lyon (Institut National des Sciences Appliquées de Lyon) · 2016

Bachelor's Degree in Computer Science

Université Claude Bernard Lyon 1 · 2014
