## Junior Game Developer

### PROFILE

Motivated Junior Game Developer with a passion for creating immersive and engaging interactive experiences. Possessing a strong foundation in game engine development, object-oriented programming, and collaborative project execution. Eager to contribute to dynamic teams and push the boundaries of game design and technology.

### EXPERIENCE

#### Junior Programmer · Nexus Games

Mar 2023 - Present

- Implemented core gameplay mechanics and UI features for an unannounced PC title using C# and Unity, contributing to a 15% improvement in player tutorial completion rates.
- Optimized asset loading times and memory usage across several game levels, resulting in a 10% reduction in load screen duration.
- Collaborated with a team of 5 designers and artists to integrate new features, ensuring seamless cross-departmental workflow.

#### Game Development Intern · Aurora Studios

Jun 2022 - Sep 2022

- Developed and debugged C++ scripts for AI behavior and character movement in an Unreal Engine 5 project.
- Assisted in the creation of visual effects and particle systems, enhancing environmental immersion.
- Participated in daily stand-ups and sprint reviews, providing technical insights and progress updates.

#### Independent Game Developer (Project-based) · Self-Employed

Jan 2021 - May 2022

- Designed and prototyped 3 unique game concepts from conception to playable demos using Unity, focusing on innovative mechanics.
- Managed all aspects of development including programming, asset integration, and basic sound design for personal projects.
- Utilized version control (Git) to track changes and collaborate on a small open-source game jam entry.

### EDUCATION

#### Bachelor of Science in Computer Science, Game Development Track

University of Southern California · 2023

#### Associate of Arts in Game Design

Santa Monica College · 2021
