Jane Doe

Junior Backend Engineer

PROFILE

Highly motivated Junior Backend Engineer with a strong foundation in Python and API development. Proven ability to build and optimize scalable backend systems, contributing to significant performance improvements and data processing efficiency. Eager to apply technical skills to solve complex problems and contribute to innovative projects.

EXPERIENCE

Junior Backend Developer · TechSolutions Inc.

Jan 2023 - Present

- Developed and maintained RESTful APIs using Python and Django, improving data retrieval efficiency by 15% for key client applications.
- Implemented new features for a core microservice, reducing processing time for critical transactions by 20%.
- Collaborated with front-end teams to integrate API endpoints, ensuring seamless data flow and user experience.

Software Development Intern · Innovate Systems

Jun 2022 - Dec 2022

- Assisted in optimizing SQL queries for a large-scale database, resulting in a 10% reduction in query execution time.
- Wrote Python scripts to automate daily data migration tasks, saving approximately 5 hours per week for the engineering team.
- Contributed to the development of a new internal tool, enhancing team collaboration and project tracking efficiency.

Teaching Assistant (Database Systems) · University of Texas at Austin

Sep 2021 - May 2022

- Provided support to over 100 students in understanding complex SQL queries and database design principles.
- Developed supplementary materials and examples, leading to a 5% improvement in average student project scores.
- Assisted professors in grading assignments and projects, ensuring timely and constructive feedback.

EDUCATION

Bachelor of Science in Computer Science

University of Texas at Austin · 2022
