Lena Schmidt

Mid-level Technical Writer

PROFILE

A dedicated and detail-oriented Mid-level Technical Writer with several years of experience creating clear, concise, and comprehensive documentation for software products and APIs. Proven ability to translate complex technical concepts into user-friendly content, improving user experience and product adoption. Skilled in various documentation tools and methodologies, committed to delivering high-quality technical assets.

EXPERIENCE

Technical Writer · InnovateTech Solutions GmbHJan 2022 - Present

- Authored and maintained comprehensive API documentation for 5+ microservices using Swagger/OpenAPI specifications, reducing support inquiries by 15%.
- Developed and implemented a new documentation review process, improving content accuracy by 20% and reducing time-to-publish by 10 days.
- Created user manuals and installation guides for B2B SaaS products, leading to a 25% increase in successful first-time user setups.
- Utilized Python scripts to automate routine tasks, such as generating release notes from Jira tickets, saving approximately 4 hours per release cycle.

Junior Technical Writer · DigitalPath AGSep 2019 - Dec 2021

- Contributed to the development of online help systems and knowledge base articles for enterprise software solutions, assisting over 10,000 users monthly.
- Collaborated with software developers and product managers to gather information and ensure technical accuracy, resulting in a 98% satisfaction rate for documentation quality.
- Managed content updates for 3 product lines across multiple versions, ensuring all documentation was up-to-date with product features.

Technical Content Intern · GlobalData InsightsMar 2019 - Aug 2019

- Assisted senior technical writers in creating and editing documentation for data analytics platforms.
- Conducted user testing on preliminary documentation drafts to gather feedback and identify areas for improvement.
- Organized and cataloged existing documentation assets, improving accessibility by 30% for the writing team.
