Liam Tremblay

Junior Network Engineer

PROFILE

Highly motivated Junior Network Engineer with a strong foundation in network infrastructure, security, and troubleshooting. Adept at supporting and maintaining enterprise-level networks, ensuring optimal performance and reliability. Eager to contribute technical expertise and grow within a dynamic IT environment.

EXPERIENCE

Junior Network Engineer · Pacific Coast ConnectivityJan 2023 - Present

- Managed and maintained network infrastructure for 200+ employees across 3 office locations, ensuring 99.8% network uptime.
- Configured and deployed Cisco routers and switches, enhancing network segment efficiency by 15%.
- Provided first and second-tier network support, resolving an average of 40 network incidents per week.
- Assisted in the implementation of new Fortinet firewall policies, improving network security posture by reducing unauthorized access attempts by 20%.

Network Support Specialist · Northern Connections Inc.Aug 2021 - Dec 2022

- Monitored network performance and availability using SolarWinds, identifying and addressing potential issues proactively.
- Performed routine network device backups and configuration management for over 100 devices, ensuring business continuity.
- Collaborated with senior engineers on network upgrade projects, assisting with documentation and testing phases.
- Diagnosed and resolved connectivity issues for internal users, improving user satisfaction scores by 10%.

IT Support Technician · Maple Leaf Tech SolutionsMay 2020 - Jul 2021

- Provided technical support for hardware, software, and basic network issues to over 300 clients.
- Configured and maintained network printers, VoIP phones, and Wi-Fi access points.
- Managed user accounts and access permissions on Active Directory and various network resources.
- Assisted in basic network cabling and infrastructure setup for new office expansions.
