CERTIFICATIONS

AWS Certified Cloud Practitioner

Certified Kubernetes Administrator (CKA)

Maaïke Jansen

Junior Site Reliability Engineer

PROFILE

A highly motivated Junior Site Reliability Engineer with a solid foundation in cloud infrastructure, automation, and system monitoring. Possesses a strong analytical mindset and a commitment to optimizing system performance and reliability. Eager to contribute to dynamic teams focused on building resilient and scalable services.

EXPERIENCE

Junior Site Reliability Engineer · BrightEdge Solutions

March 2023 - Present

- Automated routine server maintenance tasks using Ansible, reducing manual effort by 30% and improving system uptime.
- Implemented and managed monitoring dashboards with Prometheus and Grafana, resulting in a 20% faster incident detection time.
- Assisted in the deployment and scaling of containerized applications using Docker and Kubernetes, supporting over 5 major projects.
- Managed AWS cloud resources, including EC2 instances, S3 buckets, and RDS databases, ensuring cost-efficiency and performance.

DevOps Intern · TechFlow Innovations

September 2022 - February 2023

- Developed and maintained CI/CD pipelines using GitLab CI for 3 critical applications, accelerating deployment frequency by 25%.
- Configured and managed virtual machines on AWS, reducing provisioning time for development environments by 15%.
- Contributed to infrastructure-as-code efforts using Terraform to manage cloud resources, improving consistency across environments.

IT Support Technician (Part-time) · Utrecht University

September 2021 - August 2022

- Provided technical support for over 200 university staff and students, resolving hardware and software issues promptly.
- Maintained network infrastructure and managed user accounts, ensuring system security and accessibility.
- Documented common issues and solutions, leading to a 10% reduction in recurring support requests.

EDUCATION

Bachelor of Science in Computer Science

Utrecht University · 2022
